## Precision Agriculture

As your dealer, Western Tractor is continuously finding ways to ensure that technology remains your ally. Western Tractor is deeply rooted in technology and is investing heavily to ensure we remain on the forefront of these tools that can continue to grow the value of your farming business through increased efficiencies, productivity, and uptime. Western Tractor has a comprehensive annual Ag Management Solution Support Plan to provide you with the right technology support in the field. Easy to use and cost effective, to keep you running all season long. Only one plan needed for all of

your AMS equipment. Western Tractor has multiple sets of loaner equipment available stocked throughout Southern Alberta. Equipment available free of charge in case of failure (one week max.):

- 2630 GS3 Display
- SF2 AutoTrac activation
- Swath Control activation
- GSD4 (Brown Box)
- SF3000 receiver
- RTK enabled
- ATU 200 Steering wheel
